NEWS OF THE STATE.

Brief Items Culled From the Papers on Our Exchange Table.

A slight earthquake shock was felt on the Comstock Saturday.

Casualties from accidents on the Southern Pacific railroad system last year were 850, of which 125 were fatal.

It is now almost certain that the electric power from Floriston will be here by the Fourth of July—and maybe we won't celebrate the day and event!—*Virginia Enterprise.*

The Eureka school fight has been reopened, the point being whether a teacher holding an educational diploma can teach a high school.

Prevented a Tragedy.

Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00 Every bottle guaranteed. Trial bottles free at S. J. Hodgkinson's drug store.

More Improvements.

S. Emrich has had a large and handsome canvas awning put up in front of his dry goods store. It adds greatly to the outward appearance and is much more convenient in every respect to the large wooden structures in front of most of the business houses.

MINES AND MINING

Items About Nevada's Leading Industry Clipped From Exchanges.

The Delamar Messenger reports a strike of ore assaying 4,000 ounces in silver per ton, 180 miles south of that place.

The accidental discovery of a deposit of rare and very valuable mineral in Sixmile canyon has created quite a flutter among our mining experts as well as mineralogists. The body is about two feet wide and is known as "alluminate," which has never been found on the American continent before, small quantities having been brought from Spain and also from Madagascar.—*Appeal.*

Pleasantly Entertained.

H. Block of the Washoe Inn on counter gave a pleasant ice cream party at his residence last Sunday evening. About twenty-five invited guests were present, and the time was pleasantly passed by all present. Games, conversation and refreshments was the order of the evening's entertainment. The guests unanimously voted Mr. Block a royal host.

Having a Great Run on Chamberlain's Cough Remedy.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind and it gives great satisfaction. In these days of grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—*South Chicago Daily Calomn.* For sale by Wm. Pinniger.

THE CAUSE FOR PROTECTING MISSIONARIES.

There appeared in the issue of the JOURNAL of yesterday morning an article upon the Chinese question as it is likely to develop in the near future. While our conclusion was positive upon coming events, as marked by all movements made by the administration in the last few months, we were not prepared to say that the time of the events is upon us. But, so thoroughly were we convinced that a few weeks would develop conditions that would bring us into a close war position with Russia, and perhaps other European nations, that cautious mention was made of what we deemed an approaching war storm for the United States, because of relations of the administration to Great Britain, as outlined by all that has occurred at Washington for not less than a year preceding the present time.

While we were engaged in writing the article referred to the administration at Washington was making demands on the War Department to carry into effect the obligation it is under to England by promise made to care for the interests of that power in China while it is engaged in the Transvaal war.

It is claimed there is an alliance between the United States and England, which is incorrect, as the United States has made no alliance with any power that would place it under obligation to make war to defend its interests. Hay made an effort in the canal treaty to place the United States in the hands of England, but has not succeeded in doing so over the objection of the Senate. But it is not necessary to have a formal treaty, offensive and defensive, as an understanding by the administration and the representatives of the trusts at Washington is all there is necessary for the purpose included in the work in China.

The President is the commander-in-chief of the army and navy, and all there is necessary to send the army and navy to China is a pretext, which in this instance is the protection of missionaries against attacks that may be made upon them by Chinese rebels, who may be or are in rebellion against the ruling dynasty in that country. The real object of the administration is to protect the interests of England in China against the encroachments of Russia in that country, while England is engaged in war with the Boers in the Transvaal.

It is ascertained that the United States can place an army in China from the Philippines in thirteen days to protect the missionaries as claimed against attacks by the rebels, and it is also ascertained that there are three United States warships within a short distance of the territory where war action may become necessary, and a fourth will be added in the near future to keep the rebels in form until an American fleet can be put in readiness for Chinese waters.

It is astonishing to learn the interest that the United States is taking in the missionaries in China and in the rebellion there is likely to be in that country. It has the appearance of another humane dodge for the protection of the weak with a slavery club at its end, as in the matter of the Cuban and Philippine war, which was taken from the same web that the Transvaal war came from, which is ascertained from the warp and color of the fabric.

Russia is a civilized nation and is near to the place of proposed action by the United States for the protection of missionaries. The Bear has an army near to the territory where the people live that will in the near future be in rebellion. The United States is believed to be on friendly terms with that power who would do us a service by marching its army into China to protect the missionaries, which is not all there would be for Russia in the kindness extended to us, as it would deem it a very great favor at this time to have such an invitation from the United States to protect missionaries.

The last sentences are intended to show the double dealing of the administration with the people by giving a shallow pretext for its action in the interest of England in the Orient, because it fears to give the truth which might make it liable to impeachment. The real object of the business of war that the administration may bring upon the country by its action in rushing to China for the protection of the interests of England is the exclusion of Russia from a pretext to a cause for entering Chinese territory, and it is true that the object is to prevent that power from entering China.

In the action of the United States

will be found an explanation of the war like preparations of Japan at this time whose interests in Korea have been, since the close of the Japanese-Chinese war, as much threatened by Russia as they are now but no cause for war was ascertained by Japan to be in the conflicting interests of the nations over Korean matters till the present time. There was a cause for the silence of Japan over Korean differences with Russia till the opportune time came which has been known would come in a few years as Russia was engaged in building a railroad to the south in Asia, to procure an outlet to the trade of which to the sea over the conflict in Korean interests between Russia and Japan.

England was interested and continues to be in closing the door to the entrance of Russia to the trade of Asia, and Japan was held by England from taking action till the plumb was ripe when England and Japan would rub against Russia and straighten the crooked ways of the Bear in Korea and China, which straightening process is beginning. England must and will, under the circumstances, be the ally of Japan in the Korean trouble with Russia. The cause that gave opportunity to the United States to enter into the Orient combine against Russia and the world to support the commercial interests of England cannot be given in this article but it is sufficient for the present to know that England is using the United States and Japan to further its interests against Russia, France and in truth, to further its interests against the worldless Germany while it is engaged in extending its dominion in South Africa.

WILL BE TRIED FOR HIS CRIME.

John Hancock, Lincoln County Murderer, Will Be Forced to Answer For His Cowardly Deed.

Special to the JOURNAL.

SAN QUENTIN PRISON, March 20.—John Hancock, a convict who is serving a sentence of ten years for burglary committed in Santa Ana two years ago, is to be taken to Pioche, Nevada, to be tried on a charge of murder.

For three years the authorities of Lincoln county have been endeavoring to get possession of Hancock to try him for the murder of George Engelke and George Edmundson of Ogden, Utah, on the desert of Southern Nevada in the Spring of 1897.

The history of this case has a thread of romance running through it. Three years ago Hancock and his wife, now Mrs. Geo. D. Cross of Pioche, Nevada, started from Santa Ana across the Nevada desert for Pioche.

At the Pahrump ranch, near the California and Nevada line, they met Engelke and Edmundson. The four traveled together until they were near DeLamar.

Hancock and his wife arrived in Pioche alone, and for over a year the disappearance of Engelke and Edmundson was one of absolute mystery, no trace of the missing men having been found on the desert.

In the meantime Hancock and his wife separated and she had met and fallen in love with a man named Cross. Her husband learned of her infidelity and threatened her life.

Anxious to get rid of him, she went to the authorities and confessed that her husband had murdered the two men. She described the murder in detail and told how her husband had compelled her to bury the bodies in the sands of the desert and to burn the murdered men's wagon and effects.

She even drew a map of the locality where the tragedy occurred and the Nevada authorities went to the place and found the skeletons of the two murdered men, each with its skull crushed in.

Hancock learned of his wife's confession and hastened back to Santa Ana, confessed to a burglary committed there some time before and was railroaded to San Quentin for ten years.

District Attorney McNamee of Lincoln county, Nevada, visited Governor Gage last week and received assurance from him that he would permit Hancock to be extradited.

A SYSTEM ADOPTED.

The Commissioners Decide to Take the Gamewell Fire Boxes on Trial.

The County Commissioners at their meeting yesterday took action regarding the installation of a fire alarm system for Reno. The board by a unanimous vote adopted the Gamewell system.

A. J. Coffee, representing the Gamewell company, was called upon to explain the terms of the contract, which he did in a plain manner. The city does not purchase the system outright, but takes it on trial pending its ultimate approval and purchase, providing everything is satisfactory.

Now that the commissioners have made this progressive improvement to the fire department, let the good work continue. Let them purchase a horse for the horse cart, place an extra man in the fire house and do away with the obsolete method of having the cart drawn to fires by a crowd of excited citizens.

Reno is the metropolis of the Sagebrush State. Let us show our neighbors that we are progressive. The property interests of Reno demand that her fire department be modern in every respect. It is not possible to be extravagant in providing protection against fire.

The Improvement Association Choose Officer and Transact Routine Business.

The Reno Improvement Club met in the courtroom at the court house last evening.

Beyond the election of officers little important business was transacted. The meeting was called to order by President W. O. H. Martin. The report of the secretary and treasurer was read and showed that the association is on a sound financial basis.

Reports from the committee on commerce and manufacture were placed on file.

The following officers were elected to serve the ensuing year:

A. E. Cheney, president; R. L. Fulton, first vice-president; Chas. Gilling, second vice-president; F. H. Norcross, secretary; Geo. F. Tarrittin, treasurer.

The newly elected officers will hold a meeting at an early date to appoint committees and map out plans for a thorough campaign in the interests of Washoe county.

A Pioneer Passes Away.

George F. Bliss, an old and well known resident of Reno, passed away yesterday afternoon. Mr. Bliss was 75 years of age. He had been ailing for some time and death was caused by catarrh of the stomach.

Deceased came to Nevada in the early sixties and for twenty years resided in Eureka, where he was general superintendent of the water works. He moved to Reno several years ago.

Mr. Bliss leaves a wife and two sons, Clyde F. and George, who are in California at the present time and the sad news was telegraphed to them last evening. They will arrive in Reno today. The date of the funeral will be announced later.

A Salted Mine.

Two Comstock miners recently inspected a claim near Silver City and after sampling the ore in the bottom of the shaft, concluded that MacKay and Fair would be in it with them if they could get hold of that mine. Accordingly they made overtures for a lease and were tickled to death when the owner let them have it at a pretty stiff price. They worked through two feet of ground and then their dreams of wealth vanished. The claim had been salted.—Virginia Report.

A Good Performance.

A fair sized audience witnessed the performance given at the opera house last evening by the Greater American Company. The entertainment is high class throughout and many new specialties were introduced.

It is thought the Methodist church fund, for the benefit of which the performance was given, will be considerably increased by the proceeds.

Pleasantly Surprised.

The Misses Blanche Richter and Sophie Cross were tendered a pleasant birthday surprise party by their friends last evening. About forty-five young people were invited, and they gathered at Copper Smith hall. Dancing was merrily indulged in until a late hour, when a delightful repast was spread.

CONVICTS ESCAPE.

Two of Them Elude Their Keepers and Cannot be Found.

Two prisoners named Ramsey and Collins escaped from the State prison at 9:30 Tuesday morning. They were at work on the Carson river grubbing sagebrush with four other convicts in charge of a guard, says the News.

They managed to wander some distance from the man in charge, and when they got out of pistol range they broke and ran in the direction of up the river. The guard ordered them to stop but they continued, and fearing the other four might escape he did not give pursuit but returned to prison and gave the alarm. Men were immediately despatched on their trail but up to the hour of going to press no report from them had been received.

They were garbed in the prison suits and it is not very likely that they can get very far without being captured. Ramsey is from Humboldt county, while Collins is from Storey where he was recently sent from for the larceny of powder.

Instruction Commenced.

Professor Van Baskirk, boxing instructor of the Reno Wheelmen's Club, has assigned his pupils to their classes and active work has commenced. About thirty-five young men are taking instruction and much interest has been aroused among the members.

Mr. Van Baskirk thoroughly understands boxing and has a faculty of explaining matters which enables the students to easily master the art.

The Man Who Won the Large Lottery Prize Has Been Discovered

The lucky winner of that much-talked-of \$7,500 lottery prize has at last become known. The fortunate man is none other than Joe Long. Mr. Long is employed in the freight department of the Southern Pacific, and takes his good fortune as a matter of no great import.

When seen by a reporter as to whether he had decided to bestow the money to some charitable institution or invest it in Reno real estate, he refused to express his intentions.

Started Up.

The new 5-stamp mill and concen-
trating plant of the Dividend company
started up yesterday at Como on ore
from the company's mine. Work has
been pushed very rapidly on this little
plant and a start was made before the
time set for the completion of the
plant. This plant is a small one, but
it is quite complete, and is sufficiently
large to demonstrate whether the ore
from the mine can be worked by the
process employed or not. Those who
have the matter in charge claim there
is not a particle of doubt about the ore
being worked to a good percentage by
the little mill, and if this proves true
it will be but a short time before larger
works will be constructed. The pres-
ent plant consists of stamps, silver
plates and a concentrator.

The ore from this mine has never be-
fore been handled in this manner, and
many await with interest the result of
the first run of ore.—Lyon County
Times.
